

BP 6335 Technology Replacement

Reference: **Board Policy 2510, ~~2515~~, ~~2520~~**

Adoption Date: August 21, 2001 Updated: ~~April 17, 2007~~ June 17, 2014

The Board shall provide appropriate technologies and technical support to instructional, student services, and administrative processes.

Computer technology infrastructure, equipment, systems, and expertise are essential to the mission of the District to serve students and the community. In support of achieving District and college objectives and through appropriate collegial consultation procedures, the Chancellor shall define, establish and maintain: 1) standards for the appropriate level of technology currency, 2) technology plans, and 3) procedures to systematically replace technology.

Specific committed reserves and budget allocations shall be established through the budget process to fund the plans.
