

GROSSMONT-CUYAMACA
COMMUNITY COLLEGE DISTRICT

*Virtual Meeting of the AHITW
Learning Community*

Tuesday, August 21, 2012 - 1:30-3:00 p.m.

How has your institution come to definitional consensus on the concepts associated with this work (e.g., diversity, internationalization, globalization, multicultural education, intercultural competencies, etc.)?

- Development of a diversity/multicultural graduation requirement will require districtwide conversations about meaning and goals for this requirement.
- As the district DEI Council works on its branding campaign, we must define the words we want to use and justify their use.

What student learning outcomes and/or competencies are your action items intended to achieve?

- Enhance cultural and global experiences for students and employees
- Create a welcoming and safe environment for all students, faculty and staff regardless of their background
- Celebrate the diversity of our students and employees
- Increase success rates and course completion rates for all students
