What will the position do? Under the direction of an assigned supervisor, and the coordination of the department chair or designee, perform a variety of specialized technical duties related to the organization, coordination and operation of biology laboratories and related areas. Train and provide work direction to part-time or student workers and other biology department technicians as assigned.</p> <p>2. Current status of position? Filling a vacancy - Sam Hernandez accepted the Biology Technician, Sr. position.</p> <p>3. Strategic Staffing Rationale Biology is a discipline that is constantly changing and evolving and becoming more complex. It is very interdisciplinary, requiring knowledge of biology, genomics, computers, mathematics, chemistry and biochemistry. Most of the skills and technology that we should now teach in our classes did not exist 10 years ago. If we do not keep up with the new technologies that are developed, we are doing our students a disservice by inadequately preparing them for transfer. For example, we are now involved with a DNA Barcoding project with UCSD where our students will be doing original publishable research that involves genomics and bioinformatics. This work is state-of-the-art, and did not exist 5 years ago. But UCSD (a transfer institution) expects us to include this type of technology in our curriculum as this type of original research is mandated by government agencies. Our goal is to give our students the authentic research experiences that are expected by the National Research Council (NRC) or the National Science Foundation (NSF) in the education of STEM students. The President's Council of Advisors on Science and Technology (PCAST) report, <i>Engage to Excel</i>, recommends widespread adoption of empirically validated teaching practices that engage students in "active learning," as an important means to enhance retention of STEM majors. Other recommendations include increased use of discovery-based laboratories and course-based research.</p> <p>4. Budget Impact – Identify the Following:</p> <p>a. The position is included in the current budget</p> <p>b. Key code and Object code 1455401-2210</p> <p>c. Fiscal Impact:</p> <p>i. Annual Salary amount \$45,525 plus benefits</p> <p>d.
