**TO:** Dr. Lynn Ceresino Neault, Chancellor  
Grossmont-Cuyamaca Community College District

**FROM:** Wrenna Finche, Vice Chancellor  
Fiscal Health & Accounting  
College Finance & Facilities Planning Division

**CC:** Lizette Navarette, Executive Vice Chancellor  
Institutional Supports & Success

**SUBJECT: Approved: 2022-23 COVID-19 Emergency Conditions Allowance**

The Chancellor's Office received Grossmont-Cuyamaca Community College District's application for the 2022-23 COVID-19 emergency conditions allowance. We have reviewed the district's documents and the **application is approved**. Districts **may not opt out** of the protection at any point throughout the year, but the emergency conditions allowance will be revoked if continuing eligibility requirements described in memo [FS 22-07 2022-23 COVID-19 Emergency Conditions Allowance Application](#) are not met.

The emergency condition allowance adjustment to FTES will be applied by the Chancellor's Office. **Actual FTES must be reported on the CCFS-320 Apportionment Attendance Report.**

The Chancellor's Office will apply the following protections to the district's 2022-23 Student Centered Funding Formula:

- The final FTES used to calculate the 2019-20 recalculation apportionment, which includes emergency conditions allowances provided to districts in 2019-20, will be used to calculate:
  - 1) 2022-23 apportionment for all categories of FTES as specified in the Student Centered Funding Formula, and
  - 2) the three-year average of credit FTES for subsequent fiscal years. Specifically, the protected 2022-23 credit FTES amount will be used as the 2022-23 credit FTES in the calculation of the three-year average of credit FTES in 2022-23, 2023-24, and 2024-25.

Supplemental and student success allocations will continue to be calculated using actual 2021-22 headcounts and a three-year average of 2019-20, 2020-21, and 2021-22 headcounts, respectively.

**Next Steps and Important Dates**
