

Cuyamaca Website Redesign

Preliminary Project Wireframes - Version 2

January 24, 2014

Terms & Definitions

- * **Accordion**-- Specialized content area that opens to display information in expand/contractible rows. This feature is available in the standard and landing page templates; please see applicable slides in the wireframes for examples.
- * **Bucket**-- Specialized content area to display information in boxes with headings and specifically sized photos. This feature is available in the standard and landing page templates; please see applicable slides in the wireframes for examples.
- * **Business Requirements**-- This document defines the high-level needs and features of the project by focusing on the capabilities needed by the Stakeholders of the project and the Target Users.
- * **CMS / Content Management System**-- CMS is a term for software that allows you to maintain the content of your site without affecting the graphical templates and/or having to know HTML code. There are many packages in this space, in a wide range of price points, but Beacon has selected "Cascade Server" for its content management system and is a close partner with its developer-- Hannon Hill. Several members of Beacon's staff work closely with Hannon Hill on product reviews, suggestions and enhancements and Justin Klingman speaks annually at their user conference.
- * **Content**-- All text, images, tables, photos, etc. that make up the web site, but not the layout or graphical elements such as the background or navigation links.
- * **Content Matrix**-- This document itemizes every page in the new site and its relationship to other pages in the navigational structure as well as the source of the content to populate the new page (usually either a URL of the current website page OR a Word document containing rewritten content).
- * **Features**-- Specific functionality available within one or more templates. For example, the ability to display an interactive Google Map is a "feature" available in the standard and landing page templates.
- * **Graphical Design**-- Graphics and color scheme that make up the visual appearance of the website. The new graphical design of the Grossmont and Cuyamaca websites was approved before Beacon Technologies was involved in the project and was used as the basis for the development of the mini sites.
- * **iFrame**-- An HTML page or application embedded within the content area of the new website design. Allows content editors to display information or data housed outside of Cascade within the website. However, the source page should not contain any navigational or
- * **Layout / Page Layout**-- The way the different elements on the page are arranged, including header, footer, content areas, navigation, etc.
- * **Responsive Design**-- Used to address the ever-changing landscape of devices, browsers, screen sizes and orientations, responsive design incorporates flexible, fluid and adaptive page layouts that adapt to almost any screen size.
- * **Site Hierarchy**-- A design document representing a general organizational structure of the top two or three tiers of the site in a hierarchical / flow-chart type format.
- * **Spectate**-- Software that integrates with Cascade Server that allows content editors to create web-based forms to be displayed on their web pages.
- * **Template**-- A unique page layout available within Cascade Server. A template is the basic shell with some standard and optional features for a page. It is used to create specific pages while maintaining a consistent "look" across the internal pages of the site. Examples of anticipated templates for the Grossmont and Cuyamaca sites are the following (which will be documented in the forthcoming slides of the wireframes document): Homepage, Landing Page, Standard Page, Faculty, Newsletter, Calendar, News, Committees, Photo Gallery, Page Not Found, Search Results.
- * **UAT (User Acceptance Testing)**-- Also known as "end user testing," this is the phase of the project where the client tests the site in a "real world" environment. We have specially designated test servers at Beacon that allow you to view the site exactly as it will appear in Production, without opening it up to the public yet. Depending on the size of the project, we try to reserve at least a week (and usually two or more!) for this process, to make sure that we have met your expectations for the project.
- * **Widget**--A reusable feature of a template that can be created in a shared location and used on more than one page. For example, an administrator could create a video widget (including the text title, thumbnail image and Youtube video id of a specific video) in a folder and multiple website editors could select that widget from a list to display it on their page as well, without having to provide all the previously mentioned text, image and video id information.
- * **Wireframes**-- Also known as "conceptual page layouts," this is a visual representation the skeletal framework of key elements of the website, including arrangement of the website content, navigational systems, header, footer, etc.

Proposed Site Templates

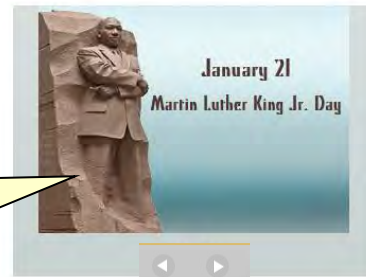

- * Home
- * Landing
- * Standard
- * Faculty
- * News
- * Newsletters
- * Photo Gallery
- * Department Landing

area of San Diego County. One historian notes the "The very old Indian name 'Cuyamaca' has persisted through Spanish, Mexican and American times," and has, at various times, been "applied to mountains, lakes, valleys and ranches." Writers have interpreted the Indian meaning of the name in various ways, including "above rain" and "place where the rain comes from heavens."

The building site was acquired by the Board of Trustees in September 1972, and the College officially opened in the Fall of 1978. The second phase of buildings was completed in January 1980. In 1989, the Learning Resource Center opened. The campus consists of eight classroom buildings and is also the site of the Heritage of the Americas Museum and the Water Conservation Garden.

In the Spring of 1995, Rancho San Diego Parkway, the Fury Lane entrance road, was completed providing students easier access to the College.

In the Fall of 1995, the College dedicated a new 20.3 acre physical education facility with a fitness center, gym, tennis and volleyball courts, soccer and ball fields and an Olympic-size track.

A new Student Services Center opened in the Spring 2001 to provide one-stop student services at the Rancho San Diego Parkway entrance. The Child Development Center and Math Learning Center opened in Fall 2001. On April 19, 2007, the new Science and Technology Center had its grand opening, with October 11, 2007 being the grand opening of the new Student Center. Then on January 31, 2008, we had the Communication Arts Center grand opening, with the BOT/CIS Building having its grand opening on January 20th, 2010.

Construction implementation is occurring on an incremental basis in response to the growing community surrounding the College and to meet the educational needs in the Grossmont-Cuyamaca Community College District. The College is designed to provide a comprehensive curriculum of programs and course of study, and when completed, will accommodate an enrollment of approximately 15,000 students in 2015.

History of Cuyamaca College

Cuyamaca College is located in the community of Rancho San Diego at 900 Ranch San Diego Parkway in the City of El Cajon on a 165-acre site which was at one time a part of the Old Monte Vista Ranch. Cuyamaca College is one of two colleges serving the Grossmont-Cuyamaca Community College District.

The name for the College was selected by the Board of Trustees, as a reflection of the history and heritage of this area of San Diego County. One historian notes the "The very old Indian name 'Cuyamaca' has persisted through Spanish, Mexican and American times," and has, at various times, been "applied to mountains, lakes, valleys and ranches." Writers have interpreted the Indian meaning of the name in various ways, including "above rain" and "place where the rain comes from heavens."

The building site was acquired by the Board of Trustees in September 1972, and the College officially opened in the Fall of 1978. The second phase of buildings was completed in January 1980. In 1989, the Learning Resource Center opened. The campus consists of eight classroom buildings and is also the site of the Heritage of the Americas Museum and the Water Conservation Garden.

In the Spring of 1995, Rancho San Diego Parkway, the Fury Lane entrance road, was completed providing students easier access to the College.

In the Fall of 1995, the College dedicated a new 20.3 acre physical education facility with a fitness center, gym, tennis and volleyball courts, soccer and ball fields and an Olympic-size track.

A new Student Services Center opened in the Spring 2001 to provide one-stop student services at the Rancho San Diego Parkway entrance. The Child Development Center and Math Learning Center opened in Fall 2001. On April 19, 2007, the new Science and Technology Center had its grand opening, with October 11, 2007 being the grand opening of the new Student Center. Then on January 31, 2008, we had the Communication Arts Center grand opening, with the BOT/CIS Building having its grand opening on January 20th, 2010.

Construction implementation is occurring on an incremental basis in response to the growing community surrounding the College and to meet the educational needs in the Grossmont-Cuyamaca Community College District. Main Title

There are many variations of passages of Lorem Ipsum available, but the majority have suffered alteration in some form, by injected humour, or randomised words which don't even slightly change the overall meaning. If you are going to use a passage of Lorem Ipsum, you need to be sure there isn't anything embarrassing hidden in the middle of text. All the Lorem Ipsum generators on the Internet tend to repeat predefined chunks as necessary, making this the first true generator on the Internet. It uses a dictionary of over 200 Latin words, combined with a handful of model sentence structures, to generate Lorem Ipsum which looks reasonable. The generated Lorem Ipsum is therefore always free from repetition, injected humour, or non-characteristic words etc.

There are many variations of passages of Lorem Ipsum available, but the majority have suffered alteration in some form, by injected humour, or randomised words which don't even slightly change the overall meaning. If you are going to use a passage of Lorem Ipsum, you need to be sure there isn't anything embarrassing hidden in the middle of text. All the Lorem Ipsum generators on the Internet tend to repeat predefined chunks as necessary, making this the first true generator on the Internet. It uses a dictionary of over 200 Latin words, combined with a handful of model sentence structures, to generate Lorem Ipsum which looks reasonable. The generated Lorem Ipsum is therefore always free from repetition, injected humour, or non-characteristic words etc.

▼ Title 1

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

If you are going to use a passage of Lorem Ipsum, you need to be sure there isn't anything embarrassing hidden in the middle of text. All the Lorem Ipsum generators on the Internet tend to repeat predefined chunks as necessary, making this the first true generator on the Internet. It uses a dictionary of over 200 Latin words, combined with a handful of model sentence structures, to generate Lorem Ipsum which looks reasonable. The generated Lorem Ipsum is therefore always free from repetition, injected humour, or non-characteristic words etc.

There are many variations of passages of Lorem Ipsum available, but the majority have suffered alteration in some form, by injected humour, or randomised words which don't look even slightly believable. If you are going to use a passage of Lorem Ipsum, you need to be sure there isn't anything embarrassing hidden in the middle of text. All the Lorem Ipsum generators on the Internet tend to repeat predefined chunks as necessary, making this the first true generator on the Internet. It uses a dictionary of over 200 Latin words, combined with a handful of model sentence structures, to generate Lorem Ipsum which looks reasonable. Automotive Technology

Program Information

- The automotive technology curriculum provides for entry level skills in the automotive field.
- The program is designed to impart in-depth technical skills as required in today's highly technical automotive field.
- Preparation for employment in the automotive and/or transportation trades, with upgrading and specialization skills for those currently employed are stressed.
- Emphasizes practical experience in actual repairs under simulated shop conditions

CA Bar- Approved Emission Training Program

Update Smog Check Training

The Bureau of Automotive Repair (BAR) requires all licensed Smog Check technicians to complete update training every two years prior to license renewal. For details go to our [smog update training page](#).

Annual Competition

The 33rd Annual High School Automotive Skills Day Competition

This school years competition will take place on Saturday, May 5, 2011 at Cuyamaca College.

For more information contact by email: [Chris Branton](mailto:Chris.Branton@gcccd.edu) or call him at (619) 660-4213.

Sponsors - We are seeking sponsors to help with awards and prizes. If you can help contact Chris Branton.

Paradise Jam Basketball Tournament Tips Off Friday at UVI; UVI Bucs to Spar Against Metropolitan on Saturday

November 22, 2013

The University of the Virgin Islands will host the 2013 Paradise Jam beginning Friday, Nov. 22, in the Sports and Fitness Center on the St. Thomas Campus. The highly anticipated NCAA Division I Basketball tournament tips off at 2:30 p.m. with the men's tournament when the University of Northern Iowa goes up against Loyola Marymount University. This year's teams also include Marist College, the University of Maryland, Providence College, and Vanderbilt, Morgan State and La Salle Universities. The championship men's game is scheduled for 11 p.m. on Monday, Nov. 25.

File Photo: Head Coach Ryan Skinner

lead the Buccaneers men's basketball squad to a 62-57 win over Metropolitan University in the 2012 Paradise Jam in front of an enthusiastic home crowd.

The action continues in the women's tournament starting on Thanksgiving Day, Thursday, Nov. 28 to Nov. 30. There are two divisions of women's play. In the tourney's "Island Division" are the University of Kansas, and Xavier, Duke and Central Michigan Universities. Teams playing in the "Reef Division" are the University of Memphis, the University of Texas, Texas A&M University and Syracuse University.

NOTICE

Emergency Message Example

This is just an example of the emergency message that can be displayed on the GCCCD District Home page only.

There is a checkbox to display the message and a choice of either blue or red banner color depending on how extreme the emergency is.

Permissions are set up to give appropriate staff access to the emergency banner. Having permissions to the home page does not automatically give permissions to the emergency content area.

You can look at the functionality in the default-dev page under the District website.

Main Title

There are many variations of passages of Lorem Ipsum available, but the majority have suffered alteration in some form, by injected humour, or randomised words which don't even slightly change the overall meaning. Lorem Ipsum comes from the Lorem Ipsum generator on the Internet. It is generated by a program which combines with a hand-picked list of Lorem Ipsum words which is therefore always free of characteristic words etc.
