History of the College

Following several years of study involving both lay and educational groups, the voters of the area approved the formation of the Grossmont Junior College District in an election held November 8, 1960. The first official organizational meeting of the Grossmont Junior College Governing Board was held July 1, 1961. The first college classes convened September 11, 1961 on the Monte Vista High School campus in Spring Valley with an opening enrollment of 1,538.

Bond elections to provide funds for the construction of a college campus were held October 10, 1961 and June 5, 1962. Although there was a healthy majority in favor of the bonds, neither election could secure the two-thirds majority needed for passage. On September 18, 1962, 73 percent of the voters approved a \$7.5 million bond issue. With the passage of the bond election, the Governing Board moved to purchase a 135-acre site located on a scenic mesa in the Fletcher Hills area adjacent to the cities of El Cajon and La Mesa. Ground was broken for the new campus in December, 1963. Even before construction was completed, the administrative offices were moved to the new campus and classes were officially opened on September 14, 1964. On December 12 of that year, the campus was officially dedicated.

The first increment of the campus was planned to accommodate an enrollment of 2,500 day-time students, and the completed campus was expected to hold 4,800 students. On October 18, 1965, a second bond election for \$3.5 million was passed by the voters in the area. Passage of this bond issue made it possible to complete the master plan. The new facilities were completed by September 25, 1967. Since that time, student enrollment has increased to a peak of over 16,000.

In the fall of 1978 Cuyamaca College opened. This is the second community college in the Grossmont-Cuyamaca Community College District. Cuyamaca College is located on a 165-acre site in the foothills, south of El Cajon, on Jamacha Boulevard. Because of state legislation in 1970, which changed the term "Junior College" in California codes to that of "Community College," the College became officially known as Grossmont Community College on January 6, 1971, when the Board of Education of the County of San Diego approved a petition from the Grossmont Junior College District requesting this change. On March 5, 1985, the Governing Board officially changed the name of the District to the Grossmont-Cuyamaca Community College District, thereby incorporating the name of our second campus in the title.

Automotive Technology

Program Information

- The automotive technology curriculum provides for entry level skills in the automotive field.
- The program is designed to impart in-depth technical skills as required in today's highly technical automotive field.
- Preparation for employment in the automotive and/or transportation trades, with upgrading and specialization skills for those currently employed are stressed.
- Emphasizes practical experience in actual repairs under simulated shop conditions

CA Bar- Approved Emission Training Program

Update Smog Check Training

The Bureau of Automotive Repair (BAR) requires all licensed Smog Check technicians to complete update training every two years prior to license renewal. For details go to our [smog update training page](#).

Annual Competition

The 33rd Annual High School Automotive Skills Day Competition

This school years competition will take place on Saturday, May 5, 2011 at Cuyamaca College.

For more information contact by email: [Chris Branton](#) or call him at (619) 660-4213.

Sponsors

We are seeking sponsors to help with awards and prizes. If you can help contact Chris Branton.

There are many variations of passages of Lorem Ipsum available, but the majority have suffered alteration in some form, by injected humour, or randomised words which don't look even slightly believable. If you are going to use a passage of Lorem Ipsum, you need to be sure there isn't anything embarrassing hidden in the middle of text. All the Lorem Ipsum generators on the Internet tend to repeat predefined chunks as necessary, making this the first true generator on the Internet. It uses a dictionary of over 200 Latin words, combined with a handful of model sentence structures, to generate Lorem Ipsum which looks reasonable. The generated Lorem Ipsum is therefore always free from repetition, injected humour, or non-characteristic words etc.

There are many variations of passages of Lorem Ipsum available, but the majority have suffered alteration in some form, by injected humour, or randomised words which don't look even slightly believable. If you are going to use a passage of Lorem Ipsum, you need to be sure there isn't anything embarrassing hidden in the middle of text. It uses a dictionary of over 200 Latin words, combined with a handful of model sentence structures, to generate Lorem Ipsum which looks reasonable. The generated Lorem Ipsum is therefore always free from repetition, injected humour, or non-characteristic words etc.

There are many variations of passages of Lorem Ipsum available, but the majority have suffered alteration in some form, by injected humour, or randomised words which don't look even slightly believable. If you are going to use a passage of Lorem Ipsum, you need to be sure there isn't anything embarrassing hidden in the middle of text. All the Lorem Ipsum generators on the Internet tend to repeat predefined chunks as necessary, making this the first true generator on the Internet. It uses a dictionary of over 200 Latin words, combined with a handful of model sentence structures, to generate Lorem Ipsum which looks reasonable. The generated Lorem Ipsum is therefore always free from repetition, injected humour, or non-characteristic words etc.
