

### **Emergency Communication**

Information Systems, Advancement and Communications and the Human Resources Division have completed an upgrade of our employee and student records to be better prepared if needed for an emergency communication. We added 930 employee cell phone numbers for a total of 1,000 and were able to identify 18,000 student numbers as cell phones.

We especially want to acknowledge the Human Resources staff who took on significant workload to process all the changes quickly in a very tight time frame.

### **Quarterly Report**

The quarterly reports are included on this month's docket and provide a snapshot of the projected revenue, expenditures and cash position.

Related to this is the District's cash projection for this spring. The forecast indicates the need to borrow funds as authorized in the Tax and Revenue Anticipation Notes (TRANS) docket item.

### **Police Officers Have a New Look**

Our police officers have a new look. The department has transitioned from informal polo shirt type uniforms to official police uniforms. The new uniforms were initially requested by the officers and have a more professional look, are more functional and comfortable, and more cost effective. The old uniforms will be transitioned to use for bike patrols.

Officer Coleman is shown wearing the new uniform and Supervisor Laveaga is wearing the old design.

**District Services Diversity, Equity & Inclusion (DEI) Committee**  
**Employee Spotlight**

The District Services DEI committee has launched a program to provide a venue for employees to share their cultures and backgrounds. Karen Kline developed the idea and volunteered to be our first spotlight. She said she enjoyed letting coworkers know more about her and looks forward to getting to know more about her coworkers as well.

Karen and her mother Amy are Navajo and are seen here in Native Dress. All of their jewelry they are wearing was handmade by their family.

**CBOC Report**

Our independent Citizen’s Bond Oversight Committee is proud to present their annual report of activities on the *Prop R* program. The District also appreciates that the committee has agreed to expand their oversight to include our 2013 *Prop V* program.

**Sue Rearic** *Vice Chancellor*
