

Budget Update

The District is anticipating receiving P-1 soon. Last week we received a one-time reimbursement of State mandated local program costs.

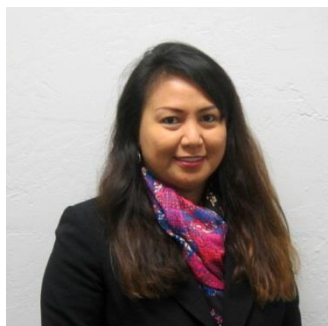

Under the direction of CAPS Director Nicole Conklin, the following tasks have been completed over the past few weeks:

- CAPS bike patrols were introduced on both campuses;
- CAPS staffed booths at both campuses during Week of Welcome;
- New CAPS logo for vehicles was created by CAPS member Jon Snyder;
- CAPS staffing changed, eliminating need for contract services from G4S for security services;
- District Safety Committee approved renovation and standardization of all emergency call box phones identified during assessment done in December;
- Parking counts completed at both campuses to begin an assessment of needs;
- Identified areas of parking lots with backlog of painting, and will continue to identify areas of need;
- Implemented new warning system for vehicles without parking permits to provide better customer service and information to new students regarding parking permit requirements;
- Parking information posted on CAPS internet page, Facebook, Twitter, and signs at both campuses.
