

HOLIDAY SHUTDOWN SUSTAINABILITY PROGRAM REMINDER

Thank you for doing your part to help the Energy Program!

BEFORE THE BREAK:

- Turn off, unplug, or set back energy-using items.
- Unplug microwaves, coffee makers, & other small appliances that have a light or (non-vital) clock.
- Empty, unplug and thaw mini-fridges, being careful to not saturate the carpet/floor
- Turn heating temperatures back to the unoccupied set point.
- Close window blinds.

Winter Break is almost upon us and as a reminder, this shutdown period is one of the most important savings opportunities for the Energy Program! As you get ready for the break, please take a few minutes to prepare your area for the shutdown.
