

BP 3720

Employees and students who use District computers and networks and the information they contain, and related resources have a responsibility not to abuse those resources and to respect the rights of others. The Chancellor shall establish procedures that provide guidelines to students and staff for the appropriate use and security of information technologies. The procedures shall include that users must respect software copyrights and licenses, respect the integrity and security of computer-based information resources, refrain from seeking to gain unauthorized access, and respect the rights of other computer users. The procedures will also include that users must not use a system to perform an illegal, malicious act, or an act in violation of District policy.

AP 3720

Overview

The District Computer and Network systems are the sole property of the Grossmont-Cuyamaca Community College District. They may not be used by any person without the proper authorization of the District. The Computer and Network systems are for District instructional and work related purposes only.

This procedure applies to all District students, employees, officers and others granted use of District information resources. This procedure refers to all District information resources whether individually controlled or shared, stand-alone or networked. It applies to all computer and computer communication facilities owned, leased, operated, or contracted by the District. This includes enterprise systems, personal computers, workstations, mainframes, minicomputers, and associated peripherals, software and information resources, regardless of whether used for administration, research, teaching or other purposes.

Security Program

The District has Information Systems Security Program (attached). All users of District systems are to abide by the requirements of this program.

Nondiscrimination Statement of Principles

All users have the right to be free from any conduct connected with the use of Grossmont-Cuyamaca Community College District (GCCCD) computing systems which discriminates against any person. Discriminatory conduct includes, but is not limited to, written or graphic conduct that satisfies one of the following conditions: (1) harasses, denigrates or shows hostility or aversion toward an individual or group based on that person's gender, sexual orientation, race, color, national origin or disability, or (2) has the...
