

OVERTIME & COMPENSATORY TIME

Workday tracks overtime and compensatory time. Please refer to any site or Departmental specific policies or procedures of how overtime is approved.

Overtime will be calculated each week, based on the defined work week, as your enter time. Total overtime hours can be found at the top of the screen labeled OT.

Compensatory time may be earned by certain employees and must be reported in Workday. When entering compensatory time, you must enter it as an individual time block and select "*Comp Time Worked*". If you are using compensatory time off, you will again enter this as an individual time block and select "*Comp Time Used*". This option will only be available to you if you have a compensatory time off balance. All compensatory time is to be used within twelve (12) months following the month it was earned.
